## Clean Version of Amended Claims

Serial Number: 10/039,573

Please amend claims 1 and 9 as shown below:

- 1) (Amended) A tool hanger, comprising:
- a horizontally oriented portion;
- a vertically oriented portion joined together with said horizontally oriented portion at first ends thereof at a bend; and

two or more non-axially aligned apertures located at a second end of said horizontally oriented portion, wherein said apertures are so dimensioned and so spaced so as to permit secure connection to and combination with a hand-held tool in two or more distinct locations in an orientation such that the combination of hanger and tool can be suspended in a desired location in a stable configuration.

- 9) (Amended) A tool hanger, comprising:
- a horizontally oriented portion;
- a vertically oriented portion joined together with said horizontally oriented portion at first ends thereof at a bend; and
- one or more apertures located at a second end of said horizontally oriented portion, wherein one or more of said apertures are non-circular so as to permit secure connection to and combination with a hand-held tool in an orientation such that the combination of hanger and tool can be suspended in a desired location in a stable configuration.
